Project Experience

Gym Management System (Mini Project)

- Developed a highly efficient and user-friendly web-based system to manage diets, workouts, and package details for clients during the pandemic.
- Implemented cutting-edge technologies, including HTML, CSS, and JavaScript, resulting in an intuitive and seamless user experience.
- Collaborated closely with administrators to maintain client details, optimizing operations and customer satisfaction.

Customer Care Registry (Final Year Project)

- Teamed up with IBM and ICT to create a robust and innovative web-based application for streamlined customer support.
- Engineered customer, admin, and agent interfaces, empowering users to efficiently address technology-related complaints.
- Leveraged HTML, CSS, and JavaScript to design and implement an intuitive user interface.
- Automated email notifications, ensuring prompt customer complaint resolutions and enhancing overall satisfaction.

Internship Experiences

Ascentz (September 2022)

- Distinguished performance as a Front-End Developer intern, actively contributing to multiple web development projects.
- Collaborated seamlessly within a high-performing team, translating UI designs into pixel-perfect, responsive web pages.
- Ensured cross-browser compatibility and optimized performance for an enhanced user experience.

Recent Projects

Omni Food (October 2022)

- Created an impressive landing page for a fictional start-up restaurant using HTML, CSS, and JavaScript.
- Crafted a visually stunning and engaging design, resulting in increased user engagement and conversion rates.
- Employed best practices for responsive web development, ensuring seamless functionality across various devices.
- **Successfully deployed the website using Netlify.** (Link: <https://omnifood-mealday.netlify.app/>)
